
Holding Companies and Investment Funds

I work with the Luxembourg jurisdiction at a high professional level!

Jointly with my partner organizations and bank, I provide the restructuring of portfolio holdings of our Clients via holding companies and investment funds in Luxembourg. In my opinion, all things being equal, Luxembourg offers a more professional level of security to investors and owners of large business structures with branches and affiliated companies. It's connected with state directives and a special orientation of jurisdiction on this segment.

I work on:

- ✓ The optimization of the actual structure of possession of monetary assets, funds, other material and non-material assets owned by my Clients.
- ✓ The development of the system of assets transfer to a holding company or to a special-oriented investment fund/subfund.
- ✓ The registration of the corresponding required management infrastructure and multifaceted support of its actual activity.
- ✓ Rendering services on nominal possession of shares of a new company or stakes of fund/subfund in the name of Luxembourg residents or in the name of my partner bank.

It should be mentioned that there is a prohibition for information exchange and banking secrets for persons who are residents in the Luxembourg jurisdiction.

A fee for my work is evaluated individually for each case and depends on the chosen structure of property consolidation (holding company, subfund or separated investment fund). In the case of your interest, I'll be glad to provide you with corresponding price-lists and prepare a complete budget for the foundation and support of a required structure in the Luxembourg jurisdiction.
